WILMINGTON UNIVERSITY  
COLLEGE OF BUSINESS  
BASIC COURSE INFORMATION

COURSE TITLE: Aviation Safety

COURSE NUMBER: BAM 302

I. COURSE OBJECTIVES:

Each student will:

1. Demonstrate a level of safety consciousness that permeates thought patterns while operating aircraft or managing aviation elements.

2. Demonstrate a comprehensive understanding of the various factors that cause accidents and of the means to prevent recurrence.

3. Produce original communications that verbalize the principles of effective accident prevention in aviation.

4. Develop a comprehensive safety program for an aviation element.

5. Demonstrate research skills using both manual and automated data bases to find complete information surrounding an event or events such as a major aircraft accident.

6. Demonstrate the ability to convey clearly, orally and in writing, information collected through analysis and research.

7. Demonstrate knowledge of current literature and events in the field of aviation.
