WILMINGTON UNIVERSITY
COLLEGE OF BUSINESS
BASIC COURSE INFORMATION

COURSE TITLE: Government and Aviation

COURSE NUMBER: BAM 410

I. COURSE OBJECTIVES:

Each student will:

1. Describe the legislative process. Specifically define the procedures from introduction of a bill to establishment of a law.

2. Demonstrate knowledge of how the U.S. government historically became both the regulator and promoter of the industry.

3. Evaluate issues regarding the industry as they are raised and respond to emotional statements with reasoned logics and facts.

5. Demonstrate a thorough understanding of the role of government in insuring the safety of individuals involved in flight and the various levels of government intervention.

6. Demonstrate an understanding of the financial structure of commercial aviation operations and the role of government in assuring sound business practices.

7. Produce an original work which analyzes an aspect of the industry and demonstrates the ability to do research and to apply reasoned logic to controversial situations.

8. Demonstrate the ability to convey clearly orally and in writing information collected through analysis and research.

9. Demonstrate knowledge of current literature and events in the field of aviation.
