

**WILMINGTON UNIVERSITY
COLLEGE OF TECHNOLOGY
BASIC COURSE INFORMATION**

COURSE TITLE: Advanced Digital Image Manipulation

COURSE NUMBER: DSN 410

MATERIALS: Zip Disk for personal storage of files
3.5 Floppy disk to hand in final projects for grading

I. MAJOR INSTRUCTIONAL GOALS:

GOAL A: To achieve an understanding of the variety of tools and techniques available and how they relate and may be used effectively together

Learning Outcomes: The student will:

A-1 Understand the operation of a range of computer graphic bit-mapped editing programs

GOAL B: To develop technical skills that will enable the student to produce creative images for use in later production

Learning Outcomes: The student will:

B-1. Understand the range of creative tools available to them for the realization of their individual design

GOAL C: To develop in the student an awareness of composition, balance and design

Learning Outcomes: The student will:

C-1. Discuss picture composition and apply it to their work

II. CLASS PARTICIPATION:

Students are expected to attend class and participate actively and in a positive way. Questions and relevant observations are encouraged and enrich the experience of the entire class.

Computers in the classrooms are intended to be used as tools to enhance the students' learning experience. Instant messaging, gaming, emailing, and surfing the web are distractions to the student, the surrounding students, and the instructor and constitute inappropriate behavior. Students are ethically obliged to avoid these and similar practices.
