# Research Databases by Subject

Wilmington University Library offers access to electronic resources available for research in variety of subject areas. The number of databases is ever-expanding to fit the needs of all users. To gain off-campus access go to the Library homepage and choose 'Electronic Databases' beneath the 'Research' category. Once a database is chosen, users will be directed to the WebCampus/Blackboard log-in screen. After logging in, users will be directly sent into the database with full access to content.
