

You can make a quick and easy presentation from anywhere that the *Add New* button appears. Just access Kaltura via *My Media* or via the *Mashup* tool in any Blackboard content area.

OR

THEN

If you have never used CaptureSpace before, you will need to download the recorder. You will be brought to a download page and you will need to choose the appropriate download for your system.

The Kaltura CaptureSpace Desktop Recorder

The Kaltura CaptureSpace Desktop Recorder enables easy capture in class, at home or on-the-go with automated publishing and interactive viewing within the LMS and Kaltura's MediaSpace video portal.

- Microsoft PowerPoint 2016

[Download for Mac](#)

When you get a pop-up choose “Run”

Once downloaded, the recorder will launch.

Choose “Presentations and Lectures” to narrate a PowerPoint presentation.

Choose whether or not you would like to include your webcam in your presentation and ensure the correct video and audio devices are selected. Ideally you'll use a USB headset, but a webcam the built-in microphone on your computer will work.

Import your PowerPoint using the “Browse” button and you will be given a preview of your first slide.

When you are ready, click record.

You can click through your slides using the right and left arrow keys. When you're finished, press the “Done” button. You'll have the opportunity to preview your recording again, cut out any extra time, and give it a new name before you upload it. When it's finished uploading it will appear in your *My Media* list in Blackboard.
