

**WILMINGTON UNIVERSITY
COLLEGE OF TECHNOLOGY
BASIC COURSE INFORMATION**

COURSE NUMBER: CSC 240

COURSE TITLE: JAVASCRIPT

I. MAJOR INSTRUCTIONAL OBJECTIVES:

GOAL A: Demonstrate comprehension of core JavaScript programming concepts.

A-1: Be able to define terms and concepts associated with procedural application programming.

A-2: Be able to define terms and concepts associated with object-oriented programming.

A-3: Be able to apply the core programming concepts above using the JavaScript language.

GOAL B: Demonstrate comprehension of Client-Side JavaScript implementation.

B-1: Be able to implement JavaScript code into HTML documents.

B-2: Be able to define terms and concepts associated with client-side JavaScript as implemented in modern web browsers.

II. CLASS PARTICIPATION:

Students are expected to attend class and participate actively and in a positive way. Questions and relevant observations are encouraged and enrich the experience of the entire class. Computers in the classrooms are intended to be used as tools to enhance the students' learning experience. Cell phones, instant messaging, gaming, emailing, and surfing the web are distractions to the student, the surrounding students, and the instructor and constitute inappropriate behavior. Students are ethically obliged to avoid these and similar practices.
