WILMINGTON UNIVERSITY
COLLEGE OF TECHNOLOGY
BASIC COURSE INFORMATION

COURSE TITLE: Advanced Network Management

COURSE NUMBER: SEC 435

I. MAJOR INSTRUCTIONAL GOALS:

Objective A: Describe current and emerging network protocols
Objective B: Design Ethernet-based local area networks for single building layouts.
Objective C: Describe remote access and mainframe connectivity for a LAN.
Objective D: Recognize security needs of contemporary networks.

II. CLASS PARTICIPATION:

Students are expected to attend class and participate actively and in a positive way. Questions and relevant observations are encouraged and enrich the experience of the entire class. Computers in the classrooms are intended to be used as tools to enhance the students' learning experience. Instant messaging, gaming, emailing, and surfing the web are distractions to the student, the surrounding students, and the instructor and constitute inappropriate behavior. Students are ethically obliged to avoid these and similar practices.
