

B.S. in Elementary Education (K-6)

CAEP Council for the Accreditation of Educator Preparation

Become a Teacher and Build the Foundations of Their Future

The Bachelor of Science in Elementary Education (K-6), one of Wilmington University's four undergraduate teacher preparation programs, combines educational theory and classroom practice into specialized coursework that satisfies the Delaware Department of Education's content knowledge requirements and qualifies our students to seek state licensure and certification as educators in Delaware's public and charter elementary schools.

Explore Elementary Education at Delaware's Teaching College

WilmU's graduates bring excellence in education to classrooms throughout Delaware and the Mid-Atlantic region. More than 3,500 of the state's teachers earned their bachelor's or master's degrees at WilmU, including 12 of the last 15 Teachers of the Year chosen by Delaware's Department of Education. In addition, about half of Delaware's principals and assistant principals have studied at WilmU.

Year-Long Residency Option Leads to Excellence in Teacher Preparedness

WilmU's immersive Year-Long Residency student teaching option offers an alternative to the traditional 80-day student teaching model and yields outstanding results. Candidates who complete the program are in high demand and have secured excellent teaching positions in Delaware and in high-quality schools across the country.

Learn How To Teach From Experienced Educators

College of Education students develop their skills through comprehensive coursework taught by faculty members with real experience in the practice of teaching K-to-12 students and in the challenges that educators face in today's public schools. College of Education graduates, once employed, are rated by their principals and supervisors as uniquely prepared to design and lead effective learning experiences for diverse student populations.
