

# Bachelor of Science in Organizational Leadership

## Prepare To Be an Innovative Business Leader

WilmU's B.S. in Organizational Leadership offers a unique interdisciplinary approach to learning about innovative leadership practices and is designed to foster leadership skills that emphasize a human touch. It is the only online organizational leadership program that incorporates coursework on trauma-informed approaches.

### Well-Rounded Curriculum to Prepare You for Leadership Positions in Business

This program thoroughly prepares students for the rigors of project and staff management with comprehensive business coursework — and goes even further by integrating social science coursework in leadership psychology and workplace culture. By examining leadership in a diverse and multicultural environment, as well as decision-making, interpersonal relations, change management, team facilitation and the principles of trauma-informed approaches, this program develops leaders with the empathy to keep employees engaged and productive.

### Align Your Organizational Leadership Degree With Your Career Goals

This Organizational Leadership bachelor's program offers you the unique opportunity to earn a related Dual-Credit Certificate® as part of your degree program — without extra time or tuition. Using elective courses, you can earn an additional standalone credential in an area of interest, such as Nonprofit Management, Human Resource Management or Conflict Resolution.

### Accelerate Into Graduate-Level Management Studies

Another valuable feature of this IACBE-accredited program is the option to take three graduate-level courses as part of the undergraduate degree program at the undergraduate tuition rate. You can then apply these courses and their credits to a WilmU Master of Science in Management degree!
