Master of Education in Applied Technology

Enhance Your Role as an Educator: Non-Licensure Graduate Education Degrees

Wilmington University's suite of non-licensure master's degrees in education is designed for licensed teachers looking to deepen their skills and increase their career opportunities. Programs focus on elevating your instructional skills in specific areas or deepening your expertise in educational technology. The programs may also appeal to bachelor's degree holders who seek to work in educational positions that do not require state licensure/certification.

Skills That Match the Needs of Today's Education and Training Landscape

Through courses such as Innovations in Teaching and Emerging Trends in Educational Technology, candidates learn the research-based practices that can enable:

- Current educators to become technology integration leaders in their classroom, school building or district.
- Individuals to become trainers, developers or designers of instruction for nonprofit organizations, corporations, colleges or universities, or businesses seeking training and development leaders.

Accredited Education Programs With Optimum Flexibility

WilmU's College of Education and Liberal Arts is accredited by the Council for the Accreditation of Educator Preparation (CAEP) under National Council for Accreditation of Teacher Education (NCATE) standards. With flexible course schedules — including online options — and affordable tuition, these master's-level education degrees fit your schedule and your budget.

The Choice of Top Educators

More than 3,500 current Delaware teachers have graduated from Wilmington University, including 12 of the last 15 Delaware Teachers of the Year. We're proud to be the choice of so many local education leaders.
