

Cybersecurity and Fintech Undergraduate Certificate

Financial technology (fintech), a growing force within the financial services industry, is rapidly changing the status quo. Residing entirely in cyberspace, the fintech industry is vulnerable to cyberattacks, resulting in financial fraud as well as threats to homeland security. Gain the knowledge and tools to help your organization navigate the challenges of fintech with WilmU's innovative, 21-credit, 100% online Cybersecurity and Fintech Certificate.

Combining coursework from the Colleges of Business and Technology, this interdisciplinary certificate program provides a unique set of skills. Not only is this certificate a valuable standalone credential, but it can also be part of your personalized education path. Through **Dual-Credit ADVANTAGE**, you can incorporate coursework from this certificate program into a WilmU B.S. in Computer Science, with or without a Digital Forensics concentration.

Curriculum: (21 Credits)

Prerequisites may be required. Visit the program page for details.

- FIN 320** Fintech Fundamentals
- SEC 100** Introduction to Computer Hardware and Operation
- SEC 210** Principles and Practice of Information Security
