

Bachelor of Science in Applied Business

So Many Options To Move Your Career Forward

WilmU's B.S. in Applied Business program gives you the flexibility to design your business degree to maximize previous college credits, apprenticeships, associate degrees, professional experience and military experience. The program combines fundamental business courses with generous elective options. If you are looking to complement your in-the-field experience, advance your business career or simply upskill to boost your resume and on-the-job performance, this IACBE-accredited program is a perfect choice. Choose to learn in person, 100% online or a combination of both.

Fundamentals Coupled With Lots of Real-World Context

You will gain fundamental business knowledge in communications, management, marketing, analytics, finance, accounting, problem-solving and strategy as well as proficiency with key Microsoft tools. Project-based learning, coupled with co-op/internship opportunities, helps students develop skills and apply their knowledge in context.

Customize Your Program With Stackable Credentials

You can choose to pursue a concentration in Construction Management or use the many elective options to build a degree program that works best for you. By choosing electives from various programs throughout the University, you can incorporate certificates, micro-credentials and badges into your Applied Business degree.

Make the Most of Your Prior Learning and Experience

This Applied Business program meets you where you are, so you don't need to pay to learn what you already know. A complimentary prior learning assessment is available to students so that previous coursework and on-the-job experience can be evaluated for WilmU academic credit. Apply up to 90 undergraduate transfer credits to your B.S. in Applied Business degree.
