Nursing Leadership Trauma and Resilience

Graduate Certificate

Help individuals, communities and organizations build the power of resilience. A trauma-informed approach refers to how an individual, organization and/or community responsible for providing mental health, education, crisis and/or criminal justice services can provide those services in a way that supports prevention, resilience and recovery. This graduate-level certificate program teaches the skills necessary for introducing trauma-informed approaches to your work as a nurse leader.

Curriculum (15 Credits)
