Bachelor of Science in Applied Technology

An Applied Technology Degree That Matches Your Goals

Ideal for working adults with some college, tech-related or military experience, this multidisciplinary technology degree program builds upon prior education and training. The Applied Technology bachelor's degree provides the foundations needed for success in today's knowledge economy.

Broad Foundations With Options To Personalize Your Technology Degree
Applied technology courses explore information assurance, process management, information systems, multimedia production, software applications, technical language, design and maker. A choice of concentrations lets you analyze emerging technologies that align with your career interests.

A Hands-On IT Bachelor's Degree That Hones Your Skills
This technology degree program features a cooperative learning capstone project. You'll build your resume and professional network through this applied learning experience and can then showcase your skills and IT certifications through a digital portfolio.

Microsoft Office Specialist Certification — Built Into Your IT Degree
In addition to the practical experience gained in and out of the classroom, your Applied Technology bachelor's degree program qualifies you for a Microsoft Office Specialist (MOS) certification as part of the curriculum.
