

A.S. in Health Sciences

Begin or Advance Your Healthcare Career with the A.S. in Health Sciences

The ever-evolving healthcare landscape continually creates novel roles, and individuals with foundational knowledge in healthcare coupled with specific, concentrated skill sets can prove increasingly marketable in these new positions. WilmU's 100% online Associate of Science in Health Sciences program is intended to create exactly these opportunities for entry-level career starters, as well as mid-career changers, to enter healthcare positions with maximal career mobility.

Specialized skills through a choice of four concentrations

Through the program's core courses, you will gain solid foundational knowledge in anatomy and physiology, medical terminology, medical law and ethics, and patient-centered care. Choose a concentration to align your learning with your specific career goals:

- Health Information Technology
- Interdisciplinary Care Management
- Health Promotion: Fitness
- Healthcare Practice Management

A Health Sciences degree that accommodates your schedule

WilmU's online Health Sciences associate degree program lets you advance your education while working full time, so you can continue to earn while you learn. Seven-week block courses ensure that even as a part-time student you can make quick progress toward your degree.

Supportive faculty, staff and services

Our programs are designed to serve the unique needs of working adults, some of whom are returning to college coursework after a long break. Caring faculty and staff plus comprehensive student support services make the difference and bolster your success!

20 courses 61 credits
Finish your A.S. in as little as 12 months.

\$1,197
per course

Cost of a typical 3-credit course taken at our **New Castle campus or online**

Classes start every 8 weeks
