

Drone Operations and Applications Undergraduate Certificate

Drone technology is currently employed by many industries, including public safety, agriculture, construction, photography/videography, and more. The expansion of the drone industry is regularly creating new jobs and careers. WilmU's **Drone Operations and Applications certificate** provides students with everything they'll need to break into the drone industry, including the knowledge and training to complete the Federal Aviation Administration's Small Unmanned Aircraft Systems (Part 107) exam.

Curriculum: (16 credits)

Students are held to all prerequisite requirements; some students may require more than 5 courses to complete this certificate. Visit program page for details.

UAV 100 Introduction to Drone Operations

UAV 102 Drone Design and Maintenance

UAV 200 Security of UAV and UAS Systems

UAV 487 Drone in Practice (4 Credits)
