Java Programming Undergraduate Certificate

Java programming is one of the most sought-after skills in the information technology industry because of its flexibility and cross-platform compatibility. The Java Programming certificate provides students with a concentrated course of study and a working knowledge of the Java programming language as well as a focus on object-oriented systems analysis and designing agile, iterative approaches. With some additional self-study, students can be prepared to sit for the Oracle Certified Professional Java SE 7 exam, a highly recognized industry credential.

Curriculum: (15 credits)

Students are held to all prerequisite requirements; some students may require more than 5 courses to complete this certificate. Visit program page for details.

☐ CSC	315	Foundations of Object-Oriented Programming
☐ CSC	325	Java Programming I
□ csc	335	Java Programming II
□ csc	345	Database Foundations
