Welcome to the 2011-2012 Fall Semester!

- Reinventing library space for engaged learning, social interaction and time-tested study patterns
- Partnering with faculty in Blackboard for course-specific information literacy exercises
- Connecting you with online content through tools such as LibGuides and 360 Link Journal Locator

You will be notified through e-mail when your material arrives.

GET TO KNOW THE LIBRARY STAFF

Featured Staff Member | Craig Conrad

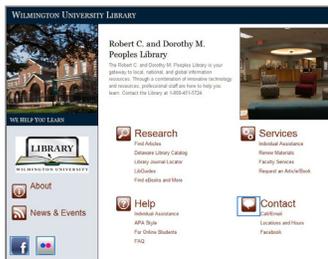

Craig Conrad joined the Library in the summer of 2007. As a Library Technician, he oversees the borrowing operations for our Interlibrary Loan service, as well as coordinating library reserves. Craig is a Philadelphia area native and a graduate of St. Joseph's University & Temple University. Craig previously worked for Neumann College and Widener University where he supervised the Interlibrary Loan Department. When asked what changes he has seen over the years while working in the Library, Craig responded with, "The proliferation of databases and automation of library services." Craig feels that the Library's role is increasingly more about educating students on how to negotiate their way through the vast maze of information resources available to them. The best part about working for the Wilmington University Library for Craig is the many opportunities for collaborative innovation in the Library. Most recently, Craig has participated in the implementation of ILLiad, the Library's new Interlibrary Loan management system. Thank you Craig for all of your hard work and efforts to bring more resources to our students!
